HIMSS TENNESSEE CHAPTER

TN HIMSS Announces Winners of Inaugural Generative AI Hackathon

The Tennessee Chapter of HIMSS is proud to announce the successful conclusion of its Inaugural Hackathon focused on Generative AI in healthcare. This pioneering event in Nashville brought together the brightest minds in technology and healthcare to drive innovation in the provider sector." to "The Tennessee Chapter of HIMSS is proud to announce the successful conclusion of its Inaugural Hackathon program focused on building solutions, leveraging generative AI technologies, to solve real-world problems for healthcare provider organizations. This pioneering program in Nashville brought together the brightest minds in technology and healthcare to drive innovation, further substantiating this community to be at the forefront of healthcare and technology.

Winners Announced in Diverse Categories
The Hackathon featured two divisions: the Open Division and the Academic Division, each showcasing remarkable talent and innovation.

In the highly competitive Open Division, Team Ronin from Ronin Consulting emerged as the division and overall winner, with their innovative solution in

healthcare leveraging Generative AI. Red Panda from Kaduceo followed, taking second place in both the division and overall standings.

The Academic Division saw impressive participation from Middle Tennessee State University (MTSU) and Belmont University, with TrueBlueMD clinching the top position and MediQ securing second place (both from MTSU).

Sponsor Spotlight

What does Pure Storage offer the healthcare industry, and what is its mission?

Pure's innovative and cloud-ready solutions turn healthcare data into powerful outcomes.

Pure Storage accelerates the performance of healthcare applications while protecting data assets and patient information.

Pure Storage redefines the storage experience and simplifies how healthcare organizations consume and interact with data. Pure powers the EHRs, enterprise imaging, back-office systems and more with storage that transforms data into value. Storage as you need it is the Pure way, whether it's on-premises, in the cloud, a hybrid model, or as a service.

What are the biggest tech challenges for healthcare organizations today?

No more "click and wait" for clinical answers. No more disruptive data storage upgrades. Just quicker insights for better patient care.

What do you hope healthcare organizations gain from your sponsorship?

Pure Storage Healthcare's leadership team is made up of a team of industry veterans with a breadth of knowledge in healthcare IT - in the areas of PACS, EHR (specifically MEDITECH and Epic), Payers, and AI. Joining Tennessee HIMSS will allow us to share our knowledge and provide education and resources to the chapter members.

What event are you most looking forward to this year?

We are excited to sponsor the chapter as a whole, but we are particularly excited about Summit24 in April!
